design

## EVERCLEAN +<sup>tm</sup> ADVANCED FABRIC PROTECTION

Everclean +<sup>tm</sup> is an environmentally friendly, soil release treatment developed to protect your fabric against the majority of everyday spills and stains. Ideally suited to contract/hospitality upholstery, the high performance finish makes the fabric water and oil repellent as well as stain resistant so that your furniture will stay looking 'fresh' with minimal maintenance as outlined on this care guide.

## PERFECT PROTECTION WITH EVERCLEAN +<sup>tm</sup>

- Easily clean away most common spillages including ketchup, mayonnaise, mustard, wine, coffee, honey, Coke etc.
- Everclean +<sup>tm</sup> has excellent durability.
- Free from fluoro chlorinated hydrocarbons and is dermatologically tested.
- Tested for harmful substances according to Oeko-Tex Standard 100.
- Tested and approved to AATCC Test Method 118.
- Does not affect the contract/hospitality fire retardant properties of fabric.

## CARE GUIDELINES GENERAL RULES TO FOLLOW FOR REGULAR CARE.

- Clean spillages and stains by initially blotting up any excess liquid with a tissue.
- Follow using a little fresh water and a microfibre cloth to gently clean in a circular motion until stain vanishes.
- Take care not to rub stain deeper into fabric.
- For stubborn or 'left in' staining use water with a little neutral soap (max 5% solution), repeat if necessary.
- After cleaning allow to completely dry before use and then gently brush with a soft brush in the direction of the pile.
- Clean up spills and stains right away, the longer stains are allowed to remain the more difficult they are to remove.
- Do not soak or over wet the fabric as this may cause unsightly water marking.
- Do not use bleach, strong chemicals, toxic substances, acids or strong solvents.
- Regularly brush using a soft headed brush to remove normal dust.
- Gently vacuum or brush away loose dirt before it becomes embedded in the fabric.
- For solid or semi-solid spills remove excess by gently lifting off with a blunt knife or spatula.
- Strong or neat alcohol if not cleaned immediately may cause damage to the fabric.
- Protect from excessive sunlight.
- Avoid contact with strong heat.
- When dealing with any stain it is important to always test an inconspicuous area of the fabric first to ensure the treatment will not cause permanent damage. If in any doubt specialist upholstery cleaning advise should be obtained.

IMPORTANT. Although this fabric will resist most types of staining under normal contract conditions it does require regular care as outlined in this guide.

Spills that are allowed to remain on the fabric for long periods of time can cause damage to the fabric and in rare cases may not be completely removed.

Everclean +<sup>tm</sup> drastically reduces the chances of fabric staining although we are unable to guarantee against all types of staining and marking and accept that there may be environments where its use is not suitable and non upholstered furniture would be more appropriate. In these instances we cannot be held responsible for the performance of the fabric. Our 'limitation of liability' as detailed on our price list applies.
